Assessor Report September 2024

The Assessor's Office has been reviewing our Agricultural Exemptions. If a parcel has an Agricultural Exemption, they need to have an updated Soil Worksheet and Lease (if not owner farmed) every five years. Some of these parcels have not had an updated Soil Worksheet in several years. We are hoping to have everyone up to date by the time the Agricultural Renewals are mailed in December. Since it is harvest season now, we do not expect much return on our requests, but as harvest season wanes we hope to have everyone up to date. The letters were sent out this month.

Michelle and Heather will both be attending the Annual Fall Assessor Conference, September 23-26, 2024. The classes will be held at the Woodcliff in Fairport. This Annual Conference is sponsored by the New York State Assessor's Association.

In preparation for Town Hall construction, the Assessor's Office will be temporarily moving to the Highway Building. This move will be around October 1, 2024. Our emails and phone numbers will remain the same.

I have attached sales from August 2024. Sales continue to exceed Assessed Values. This tells us that the Real Estate market is still thriving.

Respectfully submitted,

Development Office

The Town Planning & Zoning Office is still operating with a vacant Zoning Inspector position. Mike Warner, Tammy Brace, and Kim Burkard continue to dig in and help by tackling some of the extra work, but we are moving a bit slower with one less person and other tasks are inevitably being set aside until we fill that spot. We will be setting up interviews and hopefully be able find a good person for the position.

Uptown Landing project is still moving along with the Town Board rezoning process. I anticipate that could potentially wrap up by late fall and move to the Planning Board for site plan approval. We are all looking forward to seeing this project get started.

Form Based Code

There has been much discussion this year among the various boards about the Form Based Code. We are beginning to develop some recommendations for the Ordinance Committee to update the code to streamline the process as well as tweak some of the requirements to help smaller, less impactful projects like signs and façade

upgrades. More significant changes to the FBC will require in-depth conversation with the Town Board as those will impact the overall vision that shaped the Form Based Code. Without clear direction from the Town Board, no additional updates will be drafted.

Feedback On Reports

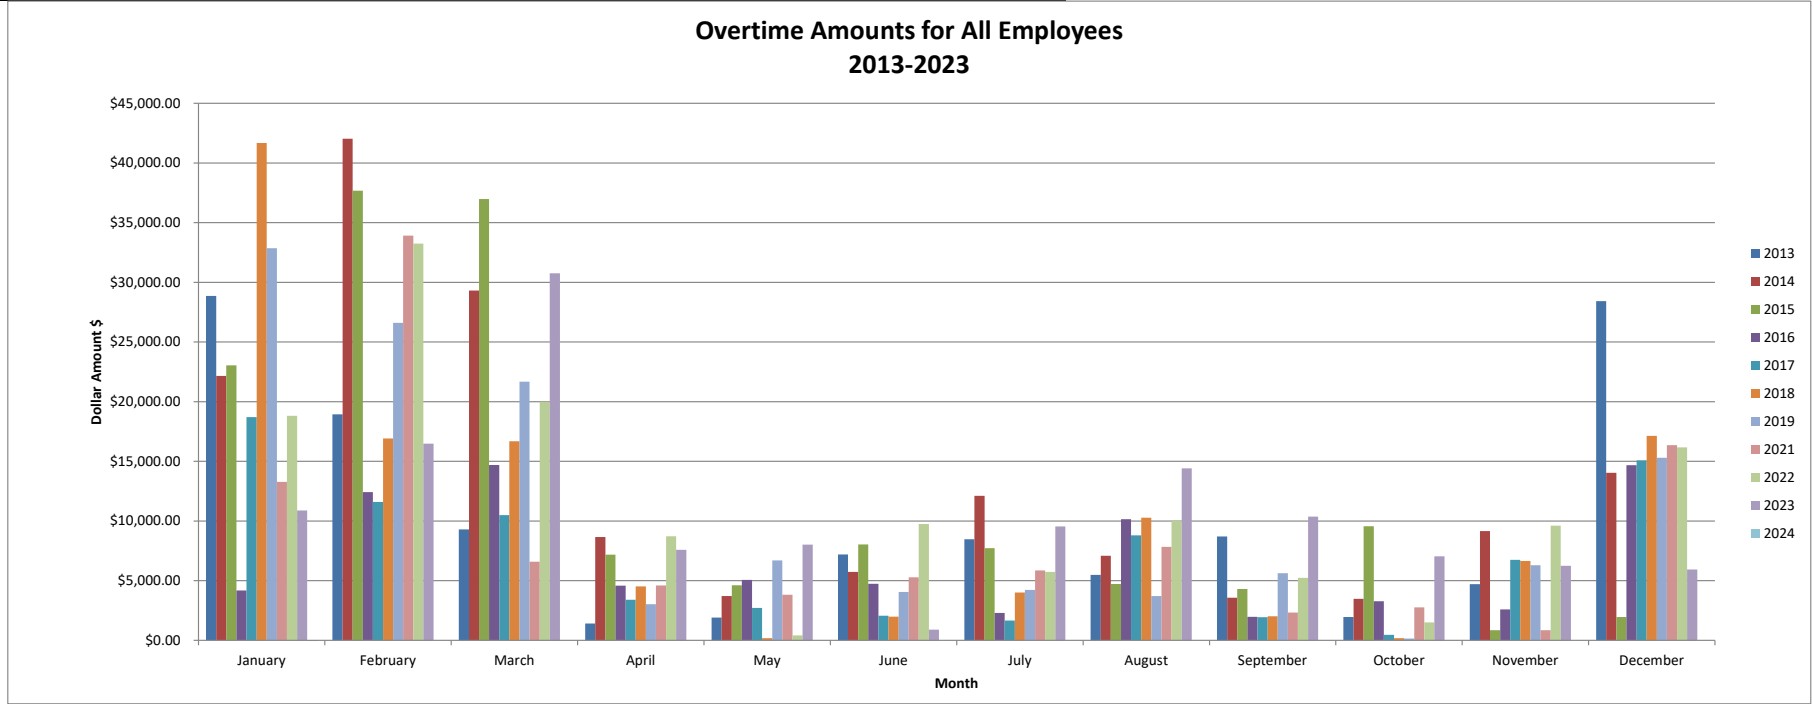

In an effort to provide the Town Board with useful information, I would appreciate feedback on these Planner reports. Specifically does the Board find the information to be useful? Is there anything more that should be included besides application statistics and a general department update? Please let me know if you have any suggestions.

Respectfully,

*3 pay period month

Code Enforcement September Report

Another busy month for our department, several large projects are going full steam ahead before winter strikes and slows progress. There were several large incidents for our office this month with fire safety issues, environmental contamination and a rapid influx of permits as the result of recent severe weather. All throughout the busy month we regularly reviewed on average 6 permits per working day and worked 2 code cases per week while providing a wealth of knowledge and resolution to residents' questions and concerns.

We have some great news this month with Sam beginning his first session of codes training and Kyle being accepted to his floodplain management course through FEMA in December. Lastly Mike is now officially a Certified Floodplain Manager joining less than 200 individuals certified in NYS and the only one in Ontario County rounding out his floodplain training with the highest accreditation available. We strive to encourage training for our entire department and look forward to the wealth of knowledge our staff brings back from these training opportunities. On a final note, we will be transitioning to Buttler Road School House next month as the building undergoes its renovation, we will still be open to the public but will also be accommodating residents that want to continue to go to the town hall.

Year to Date Totals (as of 09/13/2024):

Re: Proposed changes to chapter 92 (Construction Codes, Uniform)

COMMENTS:

UPDATED MEMO:

Relevant Changes to the Local Law.

1. Incorporated a chapter specific definition section for a clear understanding.
2. Allow for electronic application submittal, plan review and permit issuance by CEOs.
3. Added a section regarding work hours for “nuisance noise producing work”, this section is for work that is issued a permit and limiting the times that noise producing work can be completed on such projects to Weekdays 0700-1900 and Saturdays 0700-1800. This is the result of a balance from community complaints and contractor and developer input.
4. Added a section to allow for remote inspections at the discretion of the CEO.
5. Operating permits have been expanded to be in conformance with NYS requirements and regulations. We have listed them out and included relevant chapters of the code for reference.
6. Added a section on parking garages as required by NYS DOS and for possible future development with projects.
7. More clearly outlined out violation and enforcement procedures and aligned them with current NYS DOS best practices as well as best practices as received via town legal counsel.
8. Penalties have been increased to a minimum of \$500 and maximum of \$1,000 per offence with each day equating to a separate offence.

PLEASE OBSERVE THESE INSTRUCTIONS FOR FILING LOCAL LAWS WITH THE SECRETARY OF STATE

DRAFT

1. Each local law shall be filed with the Secretary of State within 20 days after its final adoption or approval as required by section 27 of the Municipal Home Rule Law. The cited statute provides that a local law shall not become effective before it is filed in the office of the Secretary of State.

2. Each local law to be filed with the Secretary of State shall be an original certified copy.

3. Each local law shall be filed on a form provided by the Department of State. If additional pages are required, they must be the same size as the form. Typewritten copies of the text may be attached to the form. Only legible copies will be accepted.

4. File only the number, title and text of the local law.

5. In the case of a local law amending a previously enacted local law, the text must be that of the law as amended. Do not include any matter in brackets, with a line through it, italicized or underscored to indicate the changes made. The printed number of the bill and explanatory matter must be omitted.

6. For the purpose of filing a local law with the Department of State, number each local law consecutively, beginning with the number one for the first local law filed in each calendar year. The next number in sequence should be applied to each local law when it is submitted for filing, regardless of its date of introduction or adoption. The date of filing of a local law is the date on which the local law is placed on file by the Department.

It is suggested that municipalities use introductory identifying bill numbers for proposed local laws. After the local law is enacted (and approved by the voters, if required), the local law should then be numbered with the next consecutive local law number, as described above, and then submitted to the Department for filing.

7. Each copy of a local law filed with the Secretary of State shall have affixed to it a certification by the Clerk of the County legislative body or the City, Town or Village Clerk or other officer designated by the local legislative body. Certification forms are provided herewith.

8. A copy of each local law may be mailed or delivered to:

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project : _____

Date : _____

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “**Yes**” to a numbered question, please complete all the questions that follow in that section.
- If you answer “**No**” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Determination of Significance - Type 1 and Unlisted Actions

Upon review of the information recorded on this EAF, as noted, plus this additional support information

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the
Town Board of the Canandaigua _____ as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Re: Local Law to clarify garage square footage

The intent of this local law is to clarify that detached private garages may exceed 900 square feet outside of the RLD-Residential Lake District.

At the recommendation of the Town Attorney and with support of the Development office staff, this amendment will improve application processes for applicants who have on their property or wish to construct on their property a detached private garage in the town of Canandaigua.

As the code is written today, the definition of a detached private garage states that it shall not be larger than 900 sf. However accessory structures (including detached private garage) are allowed to be larger than 900 sf outside the RLD if certain factors exist on a parcel. This proposed amendment would amend the definition to remove the 900 sf limitation, thereby allowing them to be larger. The code will still prohibit them to be greater than 900 sf inside the Residential Lake District.

Subject parcel is 1.0-acre. The generator is considered an accessory structure. The parcel has an existing patio which is also considered an accessory structure. In the RLD (Residential Lake District) Zoning District only one detached garage plus one accessory structure is allowed – therefore a variance is required for a second accessory structure.

The generator is located on the western (front) yard, 5 ft from the home. Surrounding land uses are all residential. The neighbors on the adjacent northern parcel submitted an email in support of the variance application. They mentioned, “the site location that they have chosen is very appropriate. Noise will not be an issue for us, as it is a distance from our living quarters. Also, the location is well screened by shrubs and therefore cannot be viewed from either our property or from the road”.

As the code is written currently, the definition of a detached private garage states that it shall not be larger than 900 SF. However, accessory structures (including detached private garages) are allowed to be larger than 900 SF outside the RLD (Residential Lake District) Zoning District if certain factors exist on a parcel. The code will still prohibit them to be greater than 900 SF inside the RLD Zoning District – see Town Code Section 220-21C(1) .

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project : _____

Date : _____

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “**Yes**” to a numbered question, please complete all the questions that follow in that section.
- If you answer “**No**” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Authorization for exemption

Real Property Tax Law § 466-a authorizes the governing body of a county, city, town, village, school district, or fire district, to partially exempt up to 10% of the assessed value of the residence of a volunteer firefighter or ambulance worker. The exemption does not apply to special assessments.

An eligible city, village, town, school district, fire district, or county may enact, after a public hearing, a local law, or a resolution in the case of a school district, to adopt the volunteer firefighters/ambulance workers exemption. Consult your assessor to ascertain whether the exemption is available locally.

Eligibility

Note: If you receive this exemption, you **cannot claim** a New York State income tax credit for the same volunteer service. However, if the property has multiple owners, the owner(s) whose volunteer service was not the basis of the exemption are eligible to claim that credit.

The exemption is available only to members of incorporated volunteer fire companies, fire departments, or incorporated ambulance services who have been certified as being enrolled members for a minimum of two to five years, depending on the policy. The municipality determines the procedure for certification.

At local option of the city, town, village, school district, fire district, or county, an enrolled member who has accrued more than 20 years of active service may be granted the exemption for the remainder of their life, as long as the member's primary residence is located within such county.

At local option, the exemption may be continued or reinstated for the un-remarried spouse of an enrolled member killed in the line of duty who had been a member

of the volunteer fire company, fire department, or volunteer ambulance service for at least five years and was receiving the exemption prior to their death.

At local option, the exemption may be continued or reinstated for the un-remarried spouse of an enrolled member who accrued at least 20 years of active service and was receiving the exemption prior to their death.

The exemption may be granted only to applicants who reside in the city, town, or village served by the fire company, fire department, or ambulance service. The exemption is only available for the applicant's primary residence and only to property (or the portion thereof) exclusively used for residential purposes.

Deadline

If one or more of your localities have opted to offer this exemption, you must file the application in the assessor's office on or before the appropriate taxable status date, which, in most towns, is March 1. Consult with your assessor to confirm the deadline for your municipality.

Once the exemption is granted, the exemption may continue for the authorized period provided that the eligibility requirements continue to be satisfied. It is not necessary to reapply after the initial year for the exemption for it to continue.

For further information, ask your local assessor. To find your local assessor's contact information, visit our website or your locality's website.

ARTICLE I

STATUTORY AUTHORITY

The New York State Legislature has, heretofore, amended the Real Property Tax Law (RPTL) to authorize municipalities to permit enrolled volunteer firefighters and volunteer ambulance workers to be eligible for a real property tax exemption as is more particularly set forth in RPTL § 466-a.

ARTICLE 2

LEGISLATIVE INTENT AND PURPOSE

The said RPTL § 466-a, among other things, allows for volunteers with two (2) years of qualifying service to apply for the tax exemption which will increase the number of eligible volunteers over existing law. The Board of Supervisors recognizes the role of the volunteer firefighters and ambulance workers in securing the safety and well-being of our communities. The Board of Supervisors hereby finds that it is in the best social and economic interest of the County of Ontario to encourage volunteerism for said purposes. To that end, by providing the following exemption, and by making it available to a larger pool of volunteers, it is the intent to encourage volunteerism for our various fire and ambulance companies.

ARTICLE 3

EXEMPTION GRANTED

- A. Real property owned by an enrolled member of an incorporated volunteer fire company, fire department or incorporated voluntary ambulance service or such enrolled member and spouse residing in Ontario County shall be exempt from taxation to the extent of ten percent (10%) of the assessed value of such property for County purposes, exclusive of special assessments.
- B. Application for such exemption shall be filed with the Assessor having jurisdiction of the real property on or before the taxable status date on a form prescribed by the Commissioner of the New York State Department of Taxation and Finance Office of Real Property Tax Services.
- C. Such exemption shall not be granted to an enrolled member of an incorporated volunteer fire company, fire department or incorporated voluntary ambulance service residing in Ontario County unless he or she meets each of the five (5) criteria set forth below:
 - 1. The applicant resides in the town or village which is served by such incorporated volunteer fire company or fire department or incorporated voluntary ambulance service;
 - 2. The property is the primary residence of the applicant;
 - 3. The property is used exclusively for residential purposes; provided however, that in the event any portion of such property is not used exclusively for the applicant's residence but is used for other purposes, such portion shall be subject to taxation and the remaining portion only shall be entitled to the exemption provided by this section;

4. The applicant has served as an enrolled member with such volunteer fire company or fire department or incorporated voluntary ambulance service for a minimum of two (2) years; and
 5. The incorporated volunteer fire company or fire department and incorporated voluntary ambulance service has submitted to the Ontario County Director of Emergency Management a complete list of enrolled members, with their respective dates of service for such incorporated voluntary fire company or fire department or incorporated voluntary ambulance service. The Ontario County Director of Emergency Management shall then review all potential candidates and certify those that meet the necessary criteria to be eligible for this exemption.
- D. Any enrolled member of an incorporated volunteer fire company, fire department or incorporated voluntary ambulance service who accrues more than twenty (20) years of active service and is so certified by the authority having jurisdiction for the incorporated volunteer fire company, fire department or incorporated voluntary ambulance service, shall be granted the ten percent exemption as authorized by RPTL § 466-a for the remainder of his or her life as long as his or her primary residence is located within Ontario County.
- E. **Un-remarried spouses of volunteer firefighters or volunteer ambulance workers killed in the line of duty:** An exemption by an enrolled member of an incorporated volunteer fire company, fire department, or incorporated voluntary ambulance service, to such deceased enrolled member's un-remarried spouse may be continued or re-instated if such member is killed in the line of duty; provided, however, that:
1. Such un-remarried spouse is certified by the authority having jurisdiction for the incorporated volunteer fire company, fire department or incorporated voluntary ambulance service as an un- remarried spouse of an enrolled member of such incorporated volunteer fire company, fire department or incorporated voluntary ambulance service who was killed in the line of duty; and
 2. Such deceased volunteer had been an enrolled member for at least five (5) years; and
 3. Such deceased volunteer had been receiving the exemption prior to his or her death.
- F. **Un-remarried spouses of deceased volunteer firefighters or volunteer ambulance workers:** An exemption by an enrolled member of an incorporated volunteer fire company, fire department, or incorporated voluntary ambulance service may be continued or re-instated to such deceased enrolled member's un-remarried spouse; provided, however, that:
1. Such un-remarried spouse is certified by the authority having jurisdiction for the incorporated volunteer fire company, fire department or incorporated voluntary ambulance service as an un- remarried spouse of a deceased enrolled member of such incorporated volunteer fire company, fire department or incorporated voluntary ambulance service; and
 2. Such deceased volunteer had been an enrolled member for at least twenty (20) years; and
 3. Such deceased volunteer and un-remarried spouse had been receiving the exemption for such property prior to the death of such volunteer.

ARTICLE 4

EXISTING EXEMPTIONS PRESERVED

No applicant who is a volunteer firefighter or volunteer ambulance worker who by reason of such status is receiving any benefit under the provisions of New York Real Property Tax Law Article 4 as of December 9, 2022 shall suffer any diminution of such benefit because of the provisions of RPTL § 466-a.

Subject: RE: County Volunteer fireman exemption

Michelle,

I have heard that some fire departments are sending information (verification letter maybe?) with the fire fighters.

The local law reads that the fire departments are to "submit to the Ontario County Director of Emergency Management a complete list of enrolled members, with their respective dates of service... The Ontario County Director of Emergency Management shall then review all potential candidates and certify those that meet the necessary criteria to be eligible for this exemption"

I spoke to John Yannotti, director of Emergency Management last week and he has not received any list as of yet. He was going to reach out to the Chiefs and make sure they understand the new process.

So I guess my short answer would be if they have stuff that they want to give you great – if not then just the application would be fine. Either way you would still need John to certify that they meet the necessary criteria. My suggestion would be an email so you have something to attach to the Application for your records.

I plan on clarifying this at the next OCAA meeting.

John's email address is John.Yannotti@ontariocountyny.gov

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project : _____

Date : _____

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “**Yes**” to a numbered question, please complete all the questions that follow in that section.
- If you answer “**No**” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

Town Board of the Canandaigua _____ as lead agency that:

☒ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.7(d)).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Brief Description of Proposed Action

We are requesting a zoning change from Form Based Code to R 130 in order to apply to construct a single family home on our property at the corner of Sommer's Drive and Thomas Road.

Since the early 1980's when I purchased Dr. Saunders' Veterinary Practice and his 25 acre farm, my family and I always planned to build our "Retirement" home on this special lot.

The lot encompasses the skating pond on which all four of my boys learned to skate and play hockey. There are many fond memories that our family shares of days gone by with camp outs, picnicking and playing sports there as the family grew up.

We believe that with the existing row of single family homes to our west, there would be little visual impact on the nature of the area. We also have the full support of both of our adjacent property owning neighbors.

Thank you for your consideration,

Bruce and Susan Campbell

<https://www.ontariocountyny.gov/DocumentCenter/View/45181/175-2024-LL-Garage-SF-Text-Amendment>

As the code is written currently, the definition of a detached private garage states that it shall not be larger than 900 SF. However, accessory structures (including detached private garages) are allowed to be larger than 900 SF outside the RLD (Residential Lake District) Zoning District if certain factors exist on a parcel. This proposed amendment would amend the definition to remove the 900 SF limitation (see Town Code Section 1-17 Definitions in the materials linked above), thereby allowing them to be larger. The code will still prohibit them to be greater than 900 SF inside the RLD Zoning District – see Town Code Section 220-21C(1) .

Subject parcel is 0.66-acres. Parcel is currently vacant with a gravel parking area and grass. The Naples Elementary School exists to the adjacent parcel to the West, and Naples High School is across Academy St. to the south. Parcels to the east are residential. Disturbance for the project is proposed to be 0.33-acres. Proposed project includes: a stage area (ADA accessible) with a concrete apron (crowd area), multiple seating areas, a 13-space (2 of which are ADA accessible) parking lot along Academy St., and a 5 ft. wide sidewalk connecting the parking lot to the stage area. The rest of the parcel is to remain (or be planted) with grass. According to the elevation drawings – the stage will be 17’3” tall (13’9” on 3’6” column posts). A new underground electric service will connect from an existing pole/meter to the new stage/performance structure. Two pole-mounted LED luminaires are proposed along the parking lot. There are no water or sanitary services proposed.

A berm is to be installed along the western side of the parcel, between the stage area and Naples Elementary (20 Academy St.). A French drain will be installed behind the stage/performance structure (northwest corner of parcel), and will connect to a dry well. An existing fire hydrant is located in the proposed parking lot area. There are 11 trees to be planted: 2 Autumn Blaze Freeman Maple in the center of the parking area, 1 Red Oak in behind the stage/performance structure, and 4 White Firs and 4 White Pines on the berm between the sidewalk and the western parcel boundary. 10 shrubs are also proposed within the White Fir/Pine landscaped area. According to the landscaping plan, “a minimum of 2-year guarantee shall be provided on all plant materials from date of final acceptance”.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project : _____

Date : _____

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “**Yes**” to a numbered question, please complete all the questions that follow in that section.
- If you answer “**No**” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

-----------------------------	----

1.0 Introduction

Uptown Landing is a 100± acre mixed residential project in the northern portion of the Town of Canandaigua. The four parcels of land comprising the development area are bordered by Firehall Road to the west, Parkside Drive and Blue Heron Park to the south, agricultural lands to the north and a residential development to the east. The mixed-residential vision is to create a mix of for-sale townhomes (90± units) and single-family housing (230± units), and for-rent apartments (220± units) with a mixed-use retail/residential building (90± units and ~5,000 sf of commercial/retail). The development will proceed in 3-4 phases with ultimate build-out anticipated in approximately 2035.

The project location has been slated for development for several years. The Town has implemented the Uptown Form Based Code in this vicinity with the project located in the Mixed-Use Development Subarea. The project has significant infrastructure available to support the project with County of Ontario owned sewer mains and pump stations, Town of Farmington owned water mains, and Town owned roadways connected to County Road 28 and NYS Route 332 in close proximity.

The proposed project will require incentive zoning approval to develop the mix of housing envisioned by the developer. While all uses proposed are permitted within the zoning, there are several modifications to the bulk requirements such as narrower lot widths for the single-family and townhome lots, lesser transparency requirements for the apartment buildings, etc. The relief requested does not provide a substantial monetary benefit to the developer as the form-based code permits significantly more dense development than is currently proposed. Instead, the modifications allow the developer to offer single-family and townhomes at a lower price point than what is typical to the market and provides a transitional design to fit within the surrounding neighborhood development patterns.

The proposed project fills a significant need for housing in the community and meets the guiding principles of the Mixed-Use Development Subarea (page 74 of the Final Uptown Form Based Code):

- *Expansion of lower density mixed-uses*

The proposed development includes 5-7 dwelling units per acre (total project) with a wide range of for-rent and ownership opportunities at a variety of price points.

- *Establish a combination of low density, multi-family homes in close proximity to commercial uses*

The west side of the project includes the commercial/retail mixed-use component and is immediately across the street from the State Route 332 Subarea on Firehall Road where a larger commercial presence is anticipated. The proposed residential housing is a mix of for-rent and for-sale with a multitude of options for community residents looking for new homes.

- *Expansion of mixed-residential uses in the Town*

The mix of apartments, single-family homes and townhomes fully complies with this guiding principle.

- *Encourage multi-modal mobility options*

The central boulevard is intended to be a complete street with additional pedestrian improvements and park connections included in the design. Offsite sidewalks for enhancing pedestrian connectivity to NYS Route 332 and existing commercial development are also incorporated in the incentives, discussed later in this report.

- *Ensure new development and site design does not negatively impact adjacent residential uses*

The proposed project thoughtfully transitions to the lower impact single-family homes adjacent to large-lot residential uses on the north and east with the apartments and mixed-use adjacent to the multifamily zoning and State Route 332 Subarea zoning to the south and west.

The following report provides additional details on specific requested incentives and amenities offered. In total the incentives requested that benefit the developer have a value of \$689,500 and the amenities offered have a value of \$828,200.

2.0 Project Code Analysis & Identified Incentives

The following summarizes the bulk code requirements applied to the project within the Town of Canandaigua Form Based Code Mixed-Use Development Subarea Zoning and Town of Canandaigua Site Design and Development Criteria. Items that the project is requesting relief from (Incentives) are denoted with a * within each chart. A summary of all requested relief and amenities offered can be found in 3.0 below.

Lot Dimensions – Single Family Lots		
Category	Required	Provided
Lot Depth	100' min/400' max	100' min
Lot Width	100' min/400' max	60' min*
Building Coverage	70% max	50% max
Lot Coverage	80% max	80% max

Lot sizes have no incentive to the developer as the project is significantly less dense than the code permits. Rather it is of value to the future homeowners and the town as it allows the housing to be offered at a lower price point than would otherwise be required.

Lot Dimensions – Town House Lots		
Category	Required	Provided
Lot Depth	100' min/400' max	100' min/400' max
Lot Width	100' min/400' max	20' min*/400' max
Building Coverage	70% max	70% max
Lot Coverage	80% max	80% max

Lot sizes have no incentive to the developer as the project is significantly less dense than the code permits. Rather it is of value to the future homeowners and the town as it allows the housing to be offered at a lower price point than would otherwise be required.

No relief from the code is sought for these lots

Building Setbacks – Single Family Lots		
Category	Required	Provided
Primary Street	5' min/20' max	25' min*/no max
Side Street	5' min/20' max	20' min*/no max
Side Interior	5' min/20' max	5' min*/no max

Façade within Build-to-Zone	75% min	30% min*/no max
Building Height	15' min/60' max	15' min/60' max

Building setbacks have no incentive to the developer as the project is significantly less dense than the code permits. Rather it is of value to the future homeowners and the town as it allows the housing to be offered at a lower price point than would otherwise be required and creates neighborhoods consistent with the product offered.

Building Setbacks – Town House Lots		
Category	Required	Provided
Primary Street	5' min/20' max	20' min/40' max*
Side Street	5' min/20' max	No requirement*
Side Interior	5' min/20' max	0'*
Rear	5' min/20' max	10' min/no max*
Façade within Build-to-Zone	75% min	75% min
Building Height	15' min/60' max	15' min/60' max

Building setbacks have no incentive to the developer as the project is significantly less dense than the code permits. Rather it is of value to the future homeowners and the town as it allows the housing to be offered at a lower price point than would otherwise be required and creates neighborhoods consistent with the product offered.

Building Setbacks – Apartments

Rear	5' min/20' max	20' min/no max*
Façade within Build-to-Zone	75% min	75% min
Building Height	15' min/60' max	15' min/60' max

Relief requested permits additional greenspace separations for ground floor units and vehicular movements for garage parking spaces. This is an incentive to the developer and an amenity will be offered.

Building Setbacks – Mixed Use		
Category	Required	Provided
Primary Street	5' min/20' max	5' min/40' max*
Side Street	5' min/20' max	5' min/20' max
Side Interior	5' min/20' max	5' min./20' max
Rear	5' min/20' max	20' min/no max*
Façade within Build-to-Zone	75% min	75% min
Building Height	15' min/60' max	15' min/60' max

Relief requested permits additional greenspace separations for ground floor units and vehicular movements for garage parking spaces. This is an incentive to the developer and an amenity will be provided. (Primary Street setback is required due to RG&E easement along Firehall Road that does not permit building encroachment).

Notes: All permitted height encroachments (Pg 77 of the Final Uptown FBC 10.05.21) will remain in effect.
Accessory structures are permitted in side or rear yards with 12' min. height and min. setback of 5'.

Façade Requirements				
	Min. Transparency Ground Story		Min. Transparency Upper Story	
	Required	Provided	Required	Provided
Single-Family	50%	10%*	40%	20%*
Town Houses	50%	5%*	40%	15%*
Apartments	50%	30%*	40%	25%*
Mixed-Use	75%	60%*	60%	25%*

Reduced transparency in the apartments and mixed-use building is an incentive, and an amenity will be offered. Please note that standard wood frame construction does not permit transparency levels to the amount dictated by code which hinders development or requires all projects to obtain variances.

Note: All allowed materials (Page 78 of the Final Uptown FBC 10.05.21) remain permitted. Vinyl siding is proposed to account for up to 80% of the primary façade for single-family and townhomes and up to 60% for the apartments where only 40% is permitted. No more than 40% of the façade will be permitted to be single orientation (e.g. shake, horizontal or vertical) – The vinyl allowance for the single-family and townhomes is not an incentive to the developer, rather it is of value to the future homeowners and the Town as it allows the housing to be offered at a lower price point than would otherwise be required. The vinyl allowance for the apartment buildings does have a benefit to the developer, is requested as an incentive, and an amenity offered.

Miscellaneous Code and Design Standard Requirements:

Bike parking ratios required by code will be provided for the apartment and mixed-use buildings, not applicable to single-family and townhome portions of the site – no relief sought.

Driveways - Relief is sought to allow a 0' side setback for townhomes where 10' is required, and to allow a 5' side setback for single-family where 10' is required. Driveway setbacks are directly correlated to the building setback items discussed above and are included in the value of the amenities offered.

Sidewalks within the development on all streets (other than the boulevard complete street) are proposed on one side, 5' in width.

3.0 Proposed Amenities

The incentives identified above for Uptown Landing are somewhat difficult to assign values to. Primarily, the bulk requirement modifications do not benefit the developer as they do not increase available densities and are integral to providing a thoughtful overall design that provides several housing opportunities to the community. The incentives requested have a total estimated value to the developer of \$689,500 with the following breakdown:

Incentives Requested	Value
Reduction of transparency (apartments & mixed-use only)	~ \$239,500
Façade materials – larger percentage of vinyl proposed	~ \$450,000
Lot Sizes	\$0
Lot Setbacks	\$0

Proposed incentives are based on feedback from multiple parties within the Town of Canandaigua including Town Board members, Planning Board members, the Parks and Recreation committee, Town of Farmington Sewer and Water, and Ontario County DPW. Several items initially discussed as amenities such as: over detention for stormwater, frontage sidewalks within the project limits, trail connections to Blue Heron Park and cash payments to the Town Parks and Recreation fund were removed from the amenity list as they would be requirements of typical site plan approvals.

Amenities offered by the developer are selected from the full list of potential amenities from the various groups. Weight was given to common requests from the various groups as the highest and best value for the Town.

The first amenity offered is park recreational equipment placed on a poured synthetic surface. A representative design and material proposed with a value of \$65,000 is provided in Figure 1. Figure 1 represents what we envision at the park, but final equipment selection will be made by the Parks and Recreation Department.

The proposed project has limited commercial and retail components, therefore one of the amenities offered for the project and other neighboring properties is to provide off-site sidewalks on Firehall Road along the Blue Heron Park frontage and along Parkside Drive to the signalized intersection at Parkside and NYS Route 332. This route provides the most direct access to area businesses and the park. An additional portion of sidewalk was requested to be added in front of 5262 Parkside Drive (415 LF of 5' wide sidewalk) to complete the sidewalk connection of on-site sidewalks to the NYS Route 332 corridor. This has been added to the amenities figure and has an additional cost to the developer. This amenity routing totals ~2,915 LF of 5' wide sidewalk (shown in Figure 2) with a value of \$250,700.

There are currently no public restrooms within Blue Heron Park. The developer proposes to add the park to the sewer district, extend sanitary service to the restroom location, and install a public restroom building similar to the building shown in Figure 3 for the benefit of all park users. This amenity has a value of \$335,000. This is the value for an ADA Compliant men's (1x urinal and 1x stall) and women's (2x stalls) restroom and drinking fountain. The design and architecture of the restroom building will be based on the design of Hanlon Architects and Figure 3 is only shown to represent function, not design style or architecture.

Another amenity offered is to provide asphalt pavement on the stone dust trails within Blue Heron Park. This amenity will decrease required maintenance, increase accessibility through the park and allow for placement in the future of additional improvements along the trail such as benches, exercise routes etc., by the Parks and Recreation Department. Trail routing is shown in Figure 2 and the improvements have an estimated value of \$97,500.

The final amenity offered is to provide a connection point to be provided for future development on the north or northwest portion of the project. Initial discussions with town staff and the town Highway Superintendent indicated no desire for a future connection point. Lands to the north and northwest portions of the project have frontage on Emerson Road and are currently used for agricultural purposes which indicates a limited value provided by a connection point. Providing a connection point would require removal of a single-family parcel valued at \$80,000. This has been added as a provided amenity with anticipated further discussion with Town staff through the approval process.

Below is a summary of the Developers Offered Amenities:

Amenities Offered	Value
Park Recreational Equipment	\$65,000
Off-Site Sidewalks (~2,915 LF)	\$250,700
New Public Restroom in Park	\$335,000
Asphalt Pavement on Stone Dust Trails	\$97,500
Right-of-way Connection to north property line	\$80,000
Total Amenities Value Offered	\$828,200

Several items requested by various involved parties and not included in the amenity package are:

- A request by the Town of Farmington for water main extension along Parkside Drive is not being provided. The overall project will eliminate the dead-end condition of the main at Parkside Drive and Brahm Road by connecting through the project out to Firehall Road. There appears to only be one undeveloped parcel that this main extension would provide service to.
- A request by the Planning Board for electronic vehicle parking stations, wastewater reclamation and solar energy to be installed at the restroom building provided as one of the amenities. The project will generate ~\$945,000 in parks and recreation fees (\$1,500/ unit x

630 units), the town may elect to use a portion of these funds to install these items at Blue Heron Park in the future if they deem there is a demand for them.

- A request was made by the Planning Board for additional open space required throughout the project. Open space is provided around stormwater management facilities but is limited within the project limits. Significant investment is being made in the adjacent Blue Heron Park in order to provide recreational open space for both the development and existing town residents. Additional open space within the project would impact development density and reduce the available amenities to be offered.
- On-site trails for connectivity were requested by the planning board. Trails have been added to the north end of the park providing additional connection points from the development to the park trail system. Connectivity within the development is provided by sidewalks on one side of all roadways and on both sides of the boulevard (complete street). Small sections of trails are provided within the development for connection offsite to the sidewalk system only.

INCENTIVE ZONING REPORT

TO: Town of Canandaigua Town Board
FROM: Town of Canandaigua Planning Board
DATE: August 13, 2024
RE: Uptown Landing / Parkside Drive Incentive Zoning Advisory Report

I. INTRODUCTION

The Planning Board submits this advisory report to the Town Board pursuant to Town Code 220-31(I) and Town Board Resolution No. 2024-202: Requesting Planning Board Advisory Report Regarding a Request to Rezone Parcels in the Uptown Canandaigua Form Based Code District to Incentive Zoning.

II. MATERIALS REVIEWED

The Planning Board discussed the incentive zoning proposal at its regularly scheduled August 13, 2024 meeting, and reviewed the following documents:

1. Town Board Resolution No 2024-202
2. Proposed Exterior Building Elevations
3. Overall As-of-Right Sketch Plan
4. Form Based Code Checklist
5. Letter of Intent
6. Zoning Law Determination
7. Overall Incentive Zoning Sketch Plan
8. Incentives and Amenities Report
9. Agricultural Data Statement

10. Full Environmental Assessment Form

11. Expanded Environmental Assessment Form Report

III. PROJECT SUMMARY

Applicant is proposing a mixed use residential project on four parcels totaling approximately 100 acres in the Form Based Code Zoning District. The project area is bordered by Firehall Road to the west, Parkside Drive and Blue Heron Park to the south, agricultural lands to the north, and Candlewood Apartments / Parkside Town Houses to the east. Applicant is proposing to construct 90 townhomes, 230 single family homes, 220 apartments, and a mixed use retail/residential building consisting of 90 apartment units and 5,000 SF of commercial/retail space.

IV. EVALUATIONS

A. Evaluation of the Adequacy With Which Proposed Amenities Fit Site

1. Park Recreation Equipment at Blue Heron Park. This amenity is off-site, but will provide a positive upgrade to Blue Heron Park, which will serve recreational needs of project residents.
2. Off-Site Sidewalk on Firehall Road along Blue Heron Park frontage. This amenity is off-site, but will provide a needed connection that will be an asset to the project residents and the Uptown community.
3. Off-Site Sidewalk along Parkside Drive to intersection at NY Route 332. This amenity is off-site, but will provide a positive upgrade to the Parkside Drive area, which will serve the residents of the project. The Planning Board recommends

that the amenity be revised to include sidewalk along the frontage of the Canandaigua School District parcel [70.11-1-20.100] to complete the connection between the project and State Route 332. Sidewalk connection to County Road 28 can be furthered with a crosswalk across Parkside Drive at the eastern terminus of the sidewalks along the project frontage.

4. Public Restrooms at Blue Heron Park. This amenity is off-site, but will provide a needed amenity at Blue Heron Park, which will serve project residents. The Planning Board recommends that the Town Board consider requiring the following as part of this proposed amenity: (a) installation of electronic vehicle charging stations at the park, (b) use of solar energy to generate electricity at the proposed restroom structure, and (c) use of wastewater reclamation at the proposed restroom structure.
5. Asphalt Pavement on Stone Dust Trails at Blue Heron Park. This amenity is off-site, but will be an asset to the community and will serve recreational needs of project residents. The Planning Board recommends that the proposed amenity be revised to include installation of a connection between the existing trails at Blue Heron Park and trails throughout the project. This will allow connectivity for project residents to access the upgraded trails at Blue Heron Park.

B. Evaluation of the Adequacy With Which Proposed Incentives Fit Site

1. Lot Dimensions. This incentive adequately fits the site except to the extent that the reduced lot widths eliminate green space in the project. Additional open space will need to be added in areas throughout the single family residential areas of the project.

2. Building Setbacks. This incentive adequately fits the site. The additional distance between the street and residential structures will allow off-site parking for residents.
3. Façade Requirements. This incentive adequately fits the site.
4. Driveway Setbacks. This incentive adequately fits the site because it will allow driveways to be off-set from those on the opposite side of the street.

C. Evaluation of How Amenities Relate to Adjacent Uses / Structures.

The proposed amenities will provide positive upgrades to Blue Heron Park as well as increased connectivity to the uses and structures in the Parkside Drive and Firehall Road area.

D. Evaluation of How Incentives Relate to Adjacent Land Uses.

The proposed incentives will relate appropriately to adjacent land uses and structures.

E. Impact of Incentive Zoning on Planning Design and Layout of Project.

The Planning Board offers the following comments on the impact of the incentive zoning as it relates to the design and layout of the project:

1. Additional open space is required throughout the project.
2. The project should provide a connection point for future development on the north and/or northwest portion of the project.
3. While trails at Blue Heron Park will be enhanced by the incentive zoning, on-site trails for resident use and connectivity should be added to the design.
4. Crosswalks and other complete street features should be added to the project.

V. CONCLUSION

The Planning Board supports the proposed incentive zoning for the Uptown Landing project, and feels that its concerns related to open space, trails, complete streets, and connectivity can be addressed through the site plan process. As stated above, the Planning Board recommends that the Town Board require the following revisions to the proposed amenities: (a) sidewalk along Parkside Drive should be extended along the frontage of the parcel owned by the Canandaigua School District [70.11-1-20.100]; (b) trail upgrades at Blue Heron Park should include the installation of a connection points to the trails that will be installed as part of the Uptown Landing Project; (c) details for the restroom construction at Blue Heron Park should include installation of electronic vehicle charging stations, use of solar energy to generate electricity at the proposed restroom structure, and use of wastewater reclamation at the proposed restroom structure.

The Planning Board reserves the right to submit additional advisory comments to the Town Board throughout the incentive zoning process.

Re: Review of Uptown Landing Incentive Zoning Proposal with consideration for its alignment with the Town of Canandaigua Comprehensive Plan Update and the Parks and Recreation Master Plan

1. Alignment with the 10 Comprehensive Plan Update Goals and Action Items

The proposed Uptown Landing Incentive Zoning project aligns with many of the Town of Canandaigua Comprehensive Plan's goals and action items, especially those concerned with directing more dense, mixed-use development to the Town's designated growth nodes. It also satisfies action items that recommend increasing pedestrian access throughout residential areas and connecting to public and community services such as parks, grocery stores and the like. The project also helps further the Town's goal of increasing housing supply in the Town. Below is an assessment of how the proposed project meets each of the 10 Comprehensive Plan Goals and which action steps it addresses.

- Agriculture
 - GOAL: The community values its agricultural heritage and rural character and supports farming and the protection of valuable, irreplaceable soils. The Town will regulate and act in support of the preservation and continued development of agriculture by supporting economic endeavors within the agricultural industry, promoting the purchase of local produce and other local agricultural products, and keeping land in farming.
 - Aligned Action Items:
 - Concentrate development in growth nodes least impactful to agriculture
 - *The proposed project is located in a designated growth node in the Uptown region of the Town.*
 - Encourage continued agricultural use of viable farmland and discourage development of those parcels by directing developers to more appropriate locations within the Town such as the three identified growth nodes.

- *The proposed project is located in a designated growth node in the Uptown region of the Town, thereby preserving continued agricultural use of surrounding farmland.*
- Natural Resources
 - GOAL: The Town will protect its natural resources and scenic views which benefit the Town and greater Canandaigua area, including Canandaigua Lake and its watershed. The Town will support the conservation and maintenance of the land that provides critical open space and creates a network of linkages for wildlife habitat, stormwater management, scenic views, and active recreational trails.
 - Aligned Action Items:
 - Promote housing and development growth within identified growth nodes and discourage development in environmentally sensitive areas.
 - *The proposed project is located in a designated growth node in the Uptown region of the Town. The proposed location does not contain any environmentally sensitive areas according to the environmental impact statement provided by the applicant.*
- Cultural and Historic Resources
 - GOAL: The Town will promote the history of the Town of Canandaigua, support the protection of significant historic properties, and promote awareness of the influences of the Native American heritage on the evolution of the Town of Canandaigua and the greater Canandaigua area.
 - Aligned Action Items:
 - *NONE*
- Parks and Recreation
 - GOAL: The Town will improve and expand the active and passive recreational re-sources within the Town to meet the needs of the community. The Town will encourage the use of existing and expanding recreation programs offered.
 - Aligned Action Items:
 - Explore opportunities to connect and/or extend existing trails.
 - *The proposed development proposes connections to existing trails at the adjoining Blue Heron Park*
 - *The amenities package includes public sidewalks along the public roads, connecting to existing sidewalks along Route 332.*
 - Provide trails within new developments.
 - *The proposed development proposes walking trails and sidewalks within the development area*
 - Put prime importance on accessibility for all ages and abilities.
 - *The proposed amenities package includes paving the existing stone dust trails at Blue Heron Park. This will improve accessibility at Blue Heron Park.*

- Economic Development
 - GOAL: The Town will promote development of sense of place and a diverse and sustainable tax base with a variety of employment options. It will maximize opportunities for commercial, industrial and service sector development without compromising the town's natural, cultural and historic resources. It will contribute to and support the local and regional tourism industry by hosting new events in our area and supporting new destinations and amenities for tourists.
 - Aligned Action Items:
 - Review and revise existing NC, CC, LI, IND, and MR zoning districts to allow for more accessible and more affordable development by reducing setback and mini-mum lot size requirements.
 - *The proposed project proposes a new zoning district through the use of Incentive Zoning that requests incentives for reduced lot sizes to allow for denser development and the potential for reduced price point for the single family homes (due to presumed reduced value associated with a smaller lot) according to the applicant/developer.*
- Residential & Neighborhood Character
 - GOAL: Support future residential growth of diverse housing types that makes Canandaigua livable for people of all ages, abilities, family sizes, and income levels. The Town will strive to create a welcoming community through events and the creation of attractive public spaces embedded in the neighborhoods designed to be inclusive, vibrant, sustainable, and accessible to all.
 - Aligned Action Items:
 - Review the efficacy of existing dimensional standards of zoning districts.
 - *The proposed Incentive Zoning district will have reduced lot sizes that are smaller than what would be allowed in the existing Form Based Code Mixed Use Subarea Zoning District.*
 - Create a plan to accommodate the potential for 1,300 new dwelling units within the Town.
 - *The proposed development will contain approximately 610 dwelling units when fully built out.*
 - Encourage the development of elder-friendly residences and neighborhoods close to groceries, health care, and other necessary services.
 - *The proposed development is in close proximity to a public park, restaurants, and the Tops grocery store. With the construction of the proposed public sidewalks, the development will provide pedestrian connections to these services and neighborhood amenities.*
- Hamlet of Cheshire
 - GOAL: Improve and protect the historic character and quality of the Hamlet of Cheshire.
 - Aligned Action Items:
 - *NONE*

- Transportation
 - GOAL: It is the goal of the Town to facilitate a diversified transportation system that effectively serves motorists, bicyclists, pedestrians, transit users and farm equipment operators. Future transportation development should accommodate active, alternative transportation and be designed to maximize safety for all modes of travel. Transportation infrastructure should incorporate changing technologies such as electric vehicles and autonomous vehicles.
 - Aligned Action Items
 - Support public and pedestrian transportation through denser, mixed-use development patterns.
 - *The proposed development includes smaller lot sizes than what would be allowed within the existing zoning district.*
 - *The proposed development includes mixed-use buildings as well as a diverse offering of both for sale and rental residential options (single family homes, apartments, and town homes).*
 - *The proposed development also includes pedestrian facilities throughout including sidewalks on all roads and trails within the development area and connections to the adjacent park trails at Blue Heron Park.*
 - Revise Town Code to allow dense residential, commercial, and workplace uses nearby existing RTS stops.
 - *The proposed development is near existing RTS stops.*
- Infrastructure
 - GOAL: Offer public water and sewer services in areas of the Town identified in Town plans, such as the Sewer and Water Master Plans and the Agricultural Enhancement Plan, for continued residential, commercial and industrial growth, and limit their expansion in the areas of the Town where increased growth is not encouraged. All residents of the Town will have access to high-speed internet and affordable, renewable energy options. The Town will plan for the replacement of aging infrastructure and public facilities and will create strategies for how best to manage stormwater. Solid waste diversion efforts will continue to grow and reduce the amount of waste sent to the Ontario County Landfill.
 - Aligned Action Items:
 - *NONE*
- Town Operations
 - GOAL: The Town will maintain efficiency of services and operations on behalf of the residents of the Town of Canandaigua through sound financial management and multi-year financial and capital planning while always exploring opportunities for shared services with neighboring municipalities and other entities.
 - Aligned Action Items:
 - *NONE*

2. Alignment with the Parks and Recreation Master Plan's Goals and Action Items

The proposed Uptown Landings Incentive Zoning project aligns with many of the Town of Canandaigua Parks and Recreation Master Plan's Recommendations and Proposed Actions. The proposed development includes proposed pedestrian facilities including sidewalks, interior trails, as well as trails and sidewalks on adjoining public roads and within Blue Heron Park. Below is an assessment of how the proposed project meets both general Parks and Recreation Master Plan goals and specific proposed actions for Blue Heron Park.

- **Long-Range Goals and Objectives for Parks and Recreation**

- **Goal 1: Promote the creation of a diversity of active and passive recreation facilities within the Town for all age groups.**
 - Objective 3: Encourage private construction and maintenance of recreational facilities available to Town residents.
 - *The proposed development includes sidewalks and both internal and external trails that would be constructed by the Developer. Maintenance would be at the cost of the Town.*
 - Objective 6: Continue to encourage and support a voluntary Town-wide trails system. Develop trails that serve as park-to-park and residential area-to-park linkages, and install trail and park signage throughout Town for ease of wayfinding.
 - *The Proposed development includes residential area-to-park linkages from the development to Blue Heron Park via trails and sidewalks.*
- **Goal 2: Capitalize on unique scenic, historical, and cultural assets, and scenic ravines, for recreational and educational pursuits.**
 - Objective 3: Provide access and trails on significant lands where appropriate.
 - *The proposed development includes sidewalks throughout the development and both internal and external trails.*
 - Objective 7: Recognize that revitalization of the Town can create an identifiable "center" or "destination" for the Town, enhance recreational pursuits, attract visitors, and contribute to economic activity.
 - *The proposed development has the potential to improve the sense of place in the Uptown region as well as help to make Uptown more of a destination for residents and the community rather than a passthrough for commuters.*

- **Goal 4: Ensure that parks and recreational offerings are responsive to the needs and desires of the community.**

B. Procedural Background.

8. Developer submitted the subject application for incentive zoning on or about July 12, 2024, and the Town Board conducted its initial review and consideration pursuant to Town Code 220-31(H) at its regularly scheduled meeting on July 22, 2024. Thereafter the Town Board informed the Developer that the Town Board considered the incentive zoning proposal worthy of further consideration, and referred the matter to the Planning Board for review and report to the Town Board by Town Board Resolution 2024-202.
9. Pursuant to Town Code 220-31(I), the Planning Board met with the applicant and reviewed the proposed incentive zoning at its August 13, 2024 meeting. The Planning Board provided its Incentive Zoning Report, dated August 13, 2024 to the Town Board.
10. The Town Board reviewed the Planning Board's Incentive Zoning Report at its August 26, 2024 meeting, and issued Town Board Resolution 2024-215, which indicated a determination of willingness to further consider the Uptown Landing Incentive Zoning proposal, declared intent to be Lead Agency for SEQR purposes, and directed the Town Planner to refer the proposal to interested and involved agencies, the Ontario County Planning Board, the Highway Superintendent, and the Town Engineer, and set a public hearing on the matter pursuant to Town Code § 220-31(J).
11. The Town Board opened a public hearing on the proposed incentive zoning on September 23, 2024 at 6:00pm at which all persons having an interest were heard.

12. The Town Board has referred the incentive zoning application to the Ontario County Planning Board, as required by Town Code 220-31(M), and has reviewed the recommendations provided by Ontario County Planning Board.

D. Determinations.

- 16. Adequate utilities and public services are at or near the Property.
- 17. The setback and lot size related Incentives will not provide a substantial monetary benefit to the Developer because the Project is significantly less dense than what Town Code currently permits, but will allow the Developer to offer single family houses and town houses for sale at a lower price point than what is typical in the market.
- 18. The building setbacks for apartments and the mixed use building will allow for additional greenspace separations for ground floor units and vehicular movements for garage parking spaces.
- 19. The Project fills a significant need for housing in the Town of Canandaigua.
- 20. The Project meets the guiding principles of the Form Based Code – Mixed Use Subarea:
 - a. Expansion of lower density mixed uses. The Project will provide 5-7 dwelling units per acre with a wide range of for-rent and for-sale housing types at a variety of price points.
 - b. Establish a combination of low density, multi-family housing in close proximity to commercial uses. The Project includes a commercial/retail mixed use component, and provides a variety of housing options in close proximity to the commercial uses on NYS Route 332, Parkside Drive, and the anticipated commercial development on Fire Hall Road.
 - c. Expansion of mixed-residential uses in the Town. The mix of apartments, single-family homes and townhomes fully complies with this guiding principle
 - d. Encourage multi-modal mobility options. The central boulevard is intended to be a complete street with additional pedestrian improvements and park connections included in the design. Offsite sidewalks for enhancing pedestrian connectivity to NYS Route 332 and existing commercial development are also incorporated in the incentives, discussed later in this report.
 - e. Ensure new development and site design does not negatively impact adjacent residential uses. The proposed project thoughtfully transitions

to the lower impact single-family homes adjacent to large-lot residential uses on the north and east with the apartments and mixed use adjacent to the multifamily zoning and State Route 332 Subarea zoning to the south and west.

21. The Amenities provide sufficient public benefit to provide the Incentives.
22. The Incentives are allowed incentives pursuant to Town Code 220-31(E)(2).
23. The Amenities are allowed amenities pursuant to Town Code 220-31(F)(3) and Town Code 220-31(F)(7).
24. The incentive zoning will advance the Town's physical, social, and cultural policies, as explained in the Town Planner's Report, dated September 5, 2024.
25. There will be no significant environmentally damaging consequences as a result of the incentive zoning project.
26. The Incentives are compatible with the development otherwise permitted in the zoning districts in which the Property is located. All proposed uses in the Project are permitted uses in their respective zoning districts.
