Shawna

I met with Jim Sprague the DPW director a few weeks ago and we both agreed that we only want the one entrance off North street and it be the one as far west as possible.

Shawna,

Thought we had decided at PRC to not do the Sketch plan with the PB, but maybe it makes sense with Jim's recommendation. I'm assuming that Jim's recommendation against the North Street access, is just for the one closer to Brickyard Road and not both access points, but please clarify.

Thanks,

-Rich

Rich-

I have not heard back from the City but do know that Jim Fletcher recommended against the North Street access point. I have not heard anything back from the City but was contacted by their Director of Development about the referral. The City of Cdga is the south side of North Street and the Town of Cdga is the north side.

If/when I heard back from the City of Cdga, I will let you know.

We have you on the 7/19 ZBA agenda and the 7/26 PB agenda for Sketch.

Good morning Shawna,

I'm back from vacation and catching up ..... I see that comments from Chris Jensen were forwarded. In reviewing those, I'm not sure he was reviewing the latest plan, nor aware that the Sketch plan submission was decided to not be completed. I assume that otherwise, we are meeting code requirements, as there were not any other comments to the contrary.

How did your meeting with the City DPW go? Is there any additional information? Will we need any additional variances? Has there been a determination on the location of the City/Town limits.

Thanks!

-Rich
