

Construction Schedule

A description of the main construction activities is provided in Schedule 1. Aura Power anticipates that construction activities related to the intended solar farm located at 2890 County Road 10, Canandaigua, NY 14424 (the “Project”) will take between eight (8) and ten (10) months. The specific calendar dates of the construction activities have not yet been determined, and will be dependent on the timeline of the Special Use Permit application and approval process. In addition, a bidding process will take place to determine the general contractor of the construction activities of the Project. Upon the award of the construction contract and the Special Use Permit approval, the selected general contractor will provide an updated schedule.

Schedule 1
