RE: Shoreline development guidelines 3814 Co Rd 16

Dear Eric:

This letter serves to explain the improvements associated with the development of the shoreline at 3814 Co Rd 16.

The shoreline of the property has been reinforced with a boulder break wall. The proposed improvements include placement of an accessory building (18'x10') in the southwest area. There will be planting beds with Hydrangea at the northeast and southeast corners of the structure, facing the Lake.

There is a large tree at the shoreline which will remain. A natural stone path will be installed (see plan) and any disturbed areas will be re-established as lawn.

Please contact me with any questions or concerns.

Sincerely

Anthony A. Venezia, LS
