Good Morning Sheryl,

Yea.. just part of our usual referral process.

We will make sure the normal process is followed and no permits will be issued until approvals are granted.

Thanks,  
Chris

**Subject:** 5007 & 5009 County Road 16 OWWTS  
**Importance:** High

This office has received the Memo regarding Plan Review for the above referenced project (Application No CPN-22-051).

This office must receive proper application, plan review fee, plans and specifications, and engineering report for the review and approval of the proposed onsite wastewater treatment system (OWWTS) **prior to construction**.

This office had contact with a previous engineering firm requiring the same information with new soil test data – no plans from that firm were received.

Building permits should not be issued until this office approves the proposed OWWTS, in conjunction with review by the Canandaigua Lake Watershed Inspector, Tyler Ohle.

We look forward to working with the new engineering firm on this project.
