storage shed for gardening and lawn tools and materials .

The reason for having the shed is to store tools and garden supplies close to where the garden plots are. since my accident for my right side rotator cuff, I have lost 50% of my strength in use of my right arm. I need to have materials and tools close to the garden sites to make it so I don't have to carry materials and tools from my other garage.

I do not see where having this additional small shed would be a problem. There are other properties in the area that have multiple ones on their property.

We would appreciate your consideration for approval of this variance.
