Re: LaCrosse Circle, Town of Canandaigua

Gentlemen:

Please be advised that the undersigned represents Dorothy Cunningham owner of premises at 3735 LaCrosse Circle, Canandaigua New York. I am advised that your company owns an adjoining property at 3739 LaCrosse Circle, Canandaigua, NY.

My client has advised me that during the construction process at 3739 LaCrosse Circle, you and your agents dramatically altered the topography of that building lot. During the construction process, you or your agents dramatically altered the topography of the lot so that surface water and storm water now runs upon the lands of my client.

Because of the change in topography of the lot that you own my clients property floods each time there is any rain or snow melt off. As we approach the spring, it is essential that you take remedial steps to correct the problem so that my client does not continue to suffer damage from the runoff of surface water from your property.

Please provide the undersigned with your proposed remediation plan and a timetable for completion of that remediation plan. Please provide the requested information no later than March 10, 2020.

Very truly yours

//Signed//
