**Subject:** 5272 MENTETH DRIVE - UPDATED GRADING PLAN

Shawn:

Attached please find a pdf of the updated site/grading plan (sheet 2) and existing conditions (sheet 1).

These sheets were updated with the ZBA's comments in mind.

Since that meeting, I contacted Kevin Olvany and we spoke by phone regarding the location and orientation (rotation) of the proposed residence. The discussion revealed that the originally proposed house location versus an altered or rotated condition, now with the associated grading can serve to preserve the creek overflow route and direct it away from the adjoining structures to the east.

I sent a copy of the plan to Kevin for his re-review and confirmation with any further comments.

The updated landscaping plan will be sent out today to you today as well.

Please advise if you need paper copies.

Also, please advise if there is a time possibly next week when I could view the Tichenor Point file and the former Riser (5265 Menteth Drive) file.

Thank you,

Scott
