Eric,  
Please add this e-mail to the boards reference materials as proof that I had reached out after a meeting with the neighbors to discuss plantings and views (Lindner included) asking for comments and concerns prior to submittal to the town. If you feel this is not required then do as you please. I just don't want to leave any question/comment unanswered.

Hello neighbors, here are the preliminary plans for the solar farm. I will keep you all informed as I make progress with your questions between now and labor day. Thanks again for meeting to discuss.
