Are you, a family member or friend experiencing an opioid crisis?

FLACRA offers immediate response services including overdose prevention, treatment and community recovery support for addiction to prescription opioids and illicit drugs such as heroin.

Our mobile van responds throughout Ontario and Yates Counties, offering onsite emergency support and telehealth video conferencing with doctors, nurses and clinicians to provide quick response when it is needed most. Through our Center of Treatment Innovation (COTI), we're working to help those in crisis and reduce opioid-related deaths.
