Here are some water issues with the poor drainage when I first moved into my home. I have several more photos around my property also that I can send due to poor drainage

In the last picture you can see no grass grows in one area plus where I have my firepit is like a natural creek running with it currently. I will take more pictures today or this weekend. I have nothing but problems since I have moved to this house and even more problems with Gerber. I can print off countless emails about drainage issues.
