Attachments: [Statement of Operations.docx](#)

In the PRC minutes for 5167 Overlook Lane, there is 2 requests that need to be returned per this document. I have forwarded a Statement of Operations to Michelle this evening, but I am still curious what is needed to complete item 3.

The applicant shall provide 1 complete hard copy of the plan. The applicant shall also submit a PDF FILE of the plans via e-mail to the Development Office at:

We do not intend to make any alterations to our residence or property to accommodate this business. No structural or site work is required to do business, what do I need to submit for this. I want to make sure I am able to get all additional information over with ample time, but this one has me stumped. Also there is a bit of a conflicting ask, in Michelle's first email, she outlined that these were needed, but in the PRC document, only 2 were asked for. I just want to make sure you all have what you need and I am not the missing link. If you could please touch base with me tomorrow at 585-260-3530, I would greatly appreciate it.

- Detailed Statement of Operations (detailed description of your proposed business) Attached
- Written statement detailing compliance with Town's zoning law

Per section 220-59 of the Town Code, my firearms business complies with all necessary provisions of a Major Home Occupation. We are not changing traffic pattern, everything is housed inside the residence, we are not making this a primary use of the residence, it has ample parking in our own driveway and there is absolutely no signage or anything that would allow someone to think a business is being operate on premise. We also do not have any additional noise, waste, water discharge or anything beyond normal use of the property.
Does this cover what is needed?

- Detailed site plan

Thanks,

Justin Henderson
