Hi Glenn-

Thank you for reaching out.

Yes, I was aware that your architect is no longer on board.

So we are all on the same page, you are asking to be removed from tonight's PB agenda and added to the 22<sup>nd</sup>?

Please advise.

Shawna

I see that the Uptown Landing project is still included on tonight's Planning Board meeting agenda. I hope everyone knows that the building renderings are not yet complete and we would prefer to receive PB feedback after they have had a chance to see the renderings. Losing our project architect did not help matters but I hope to have the renderings submitted before the March 22nd meeting. Although we hate to delay the project, we believe everyone will be served best if a complete vision of the project is provided before the review is conducted. Although I passed along this information previously I want to be sure that the PB is aware that we will not present at tonight's meeting due to an incomplete sketch plan submittal.

Glenn
