Dear michelle, I had no idea that my neighbors could hear my dogs when they do get to barking. None of them has approached us before, I wish they had as I would have gotten my dogs bark controll collers to see if this helps. If you could please forward my sincerest apologies to them along with the knowledge that I am going today to purchase the needed bark controll collers for them, I hope that this will stop their barking, I normally bring them right in if they are barking incessantly, I can't apologise enough to my neighbors, but I will try to rectify this. I don't want to disturb any of their peace and quiet, and I certainly feel terrible about this. I wish I had only known sooner

Sincerly
