**Load Capacity**

Exceeds H20/ HS20

rating

**Material**

Recycled High Density

Polyethylene (100% post-

**Color**

consumer)

Black with UV Stabilizer

**Temperature Range**

Dimensionally Stable for

-58F to 194F

**ADA Compliant**

Yes

**Environmental**

**Compatibility**

non-toxic, harmless to

plants, animals, and

**Installation Speed**

microorganisms. Inert

1,000 sf per man hour

material, groundwater

neutral

**Pre-Assembled**

16 sf (4'x4') sheets (4

grids per sheet)

**Pallet Content**

672 sf = 42 sheets per

pallet = 168 grids

**Pallet Dimensions**

48" x 48" x 48"

**Approximate Pallet**

**Weight**

472 lbs

**Truckload**

48 pallets or 32,256 sf

## TRUEGRID PRODUCT LINE

**There is nothing on the road too heavy for  
TRUEGRID to handle.**

Got heavy loads or need help with stormwater management? Trucks, rigs, or a high volume of automobiles? Commercial, industrial or retail site? Roadway, truck yard or parking lot? Need to delineate your
