Chris and Eric

I have reviewed the plans, visited the site and support the project being proposed by Terry Smith and would recommend Planning Board approval.

Please let me know if you have any questions.

Sincerely,

Kevin Olvany

Watershed Program Manager

Subject: Project Update - Pipe Location

Chris, After the town required that I keep the pipe completely on my property, I reviewed the requirements with the contractor and found that the required bend was too significant to implement. I then changed the location of the lake discharge end to straighten the path. I dropped off a copy of the revised drawing to your office. I also sent a copy to DEC to get their input. They approved the change in pipe location and provided a letter to that stating their approval. I am attaching a digital copy of their approval email along with the map that was given to them. The map is the same as the one I gave to the town to update my application.

I hope this resolves the question of pipe location to the town's satisfaction.
