**Subject:** CPN-19-062

Greetings,

Thank you for sending the plan on the above referenced project for review. This a location where a development was going to go in the past. I haven't seen anything on this in about a dozen years. This project, when it comes in here for a permit, will need to go through the full permit process. This includes a 3 phase Commercial Highway Work Permit Application and Checklist.

Thank you for allowing me to comment.

Sincerely,  
Greg
