Greetings,

Thanks for sending the information to check out the application for 1947 State Route 332. As I understand it, a commercial facility to refurbish and sell used heavy equipment is looking to occupy this space. The best way to handle this is to have them submit a concept plan to the NYSDOT, including stage 1 of a PERM 33-COM, located at this website: <https://www.dot.ny.gov/divisions/operating/oom/transportation-systems/traffic-operations-section/highway-permits/commercial> Our regional office will determine all the steps, lane widths, and anything else they would need to do to make this happen.

Thank you for allowing us to comment.

Greg
