Subject: PRC Comment Question

Hi Mr. August,

This is Kyle from the Development Office. I am reviewing the revised site plan that you submitted and I have the following question regarding one of the PRC comments to be addressed:

- The PRC comment states, "Provide information on the storage and staging area of the topsoil on the property".
 - o My question is, **do you plan on stockpiling/storing any topsoil on the property?**
 - o If not, please let me know and I will note it in the application. But if you are, please revise the plans to indicate the location of the soil stockpile on the site plan (and send us a revised pdf).

Let me know if you have any questions,

Kyle Ritts

Subject: RE: PRC Comment Question

Only moving around existing materials – No imported from off site which is what I thought you were asking

John

Subject: RE: PRC Comment Question

Just so I understand correctly, **there will be no “stockpiling of soil” on the property?** Aka, is/will there be any large piles of soil sitting on your property (existing or to be created) for this current project?

Let me know what you think. Thanks!

They are using existing on-site topsoil

Sorry and thanks for your help!

John August
