Subject: Fallbrook MHP - Town of Canandaigua

MEMO

Re: Fallbrook MHP
01/09/12

We have been "working with" the Town of Canandaigua for the past several years about setbacks, pre-existing lots/homes, and acceptable future setbacks for new homes being brought onto vacant sites.

I have attached find two letters from the Town, settling this issue for good. Letter #1 is a summary of our agreement and shows a list of setbacks for each site. The second letter simply corrects a few issues I asked them to change. I have also included a copy of the map that represents the current homes in the park. **THE EXISTING SETBACKS**, as per the MAP, can be continued as shown when bringing in **HOMES ON VACANT SITES**. The exceptions are sites #7 and #19 which will now keep a 5' setback to the road instead of 10' and 18' respectively.

Summary of all agreements:

OF SITES: Community has 43 sites, and 1 apartment (see MAP)

BUILDING PERMITS: We do still to obtain Building Permits, but will not need variances.

APARTMENT: We keep the apartment, but cannot expand it or add decks or porches with a Building Permit.

SHEDS CLOSER THAN 10' TO EXISTING HOMES: Existing sheds can remain "on top of the homes" but sheds cannot contain flammable liquids

ANNUAL LICENSE FROM THE TOWN: No longer required

This agreement represents everything we've asked for.

PLEASE KEEP THIS MAP AND SETBACK LISTING FOR FUTURE REFERENCE

Thanks,
Russ
