Tom/Lance/Chris/Eric,

FYI – the County is in agreement with working with us on the Star Cider final site plan with the County accepting the quantity from the storm water. I have been working with Tom Harvey on the attached letter as proof that they will accept the stormwater. They also need an easement from Genecco on the same property as part of this overall. Dave Genecco has agreed in principal to the easement and the arrangement, we will just need him to execute that with the County as part of any approval by the Planning Board (please!). The attached letter should be signed this week and delivered to us.

Doug Finch, Town Manager

Doug,

Updated letter. Only makes sense to handle the water to the north....There isn't any culvert under Marvin Sands Dr. at State Rt 364 to get water into the storm water pond at the corner of County Road 18. The site doesn't really drain toward the Canoe Pond.

Again, Feedback appreciated.

Tom
