Dear Friends,

As we prepare for another season of fun activities, we realize that we are still finding ourselves in a situation of unclarity. Please refer to our website for updated recreation activities, as they may not appear as accurately in this brochure.

The parks & recreation team are constantly reviewing ways to be as safe and user friendly as possible, with all measures reviewed by the New York State Department of Health. We will continue to follow the protocols set forth by the Department, however, the best way to keep our areas safe and clean is with your help and understanding. This includes staying home if you are ill, keeping your hands clean, and being respectful of the people and equipment around you at all times.

We continue to look for new opportunities for growth in programming for our community. If you have a skill that you would love to share with others, please reach out to Heather Pogue, Recreation Supervisor, to learn more about contracting services!

We appreciate all your efforts in contributing to the success of our community's parks facilities and recreational programs. Our fully trained staff are here to help answer any questions you may have about our upcoming season. We look forward to seeing you again!

Thank you!

**Your commitment would  
mean the world!**

High-quality athlete training has a huge impact on our athletes. Coach qualifications and expertise are highly valued resources.

A successful sports experience requires frequent, quality sports training.

Each training club is encouraged to train as often as possible. Community based training clubs typically train 1 evening a week, while clubs based in schools or day service programs are usually able to train more frequently.

A sports season lasts approximately 3 months, during which coaches train athletes for 8 weeks and attend 2 or 3 competitions.
