Dear Ms. Joyce:

We are in receipt of a site plan set for the referenced project dated February 12, 2016.

GENERAL

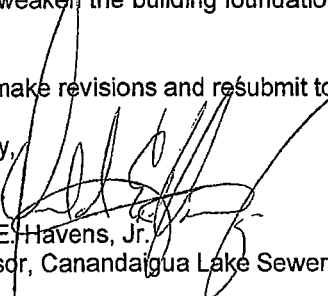

1. Renovation permit required for connection

SITE PLAN

1. Remove 6 inch SDR 21 lateral.
2. Add 4 inch SDR 21 lateral.
3. Detail proposed duplex lift station.
4. Consider a factory built duplex lift station and control panel.
5. Detail force main connection
6. Plan shows the lateral entering the building below BFE. A pipe sleeve should be provided where the lateral passes under the foundation. No part of the sleeve shall pass through the footing that could otherwise weaken the building foundation.

Please make revisions and resubmit to our office. If you have any questions I may be reached at (585) 396-4301

Sincerely,

Donald E. Havens, Jr.
Supervisor, Canandaigua Lake Sewer District
