Subject: RE: Bowerman Septic Referral - 0000 Nott Road

All,

I first reviewed the initial submittal of plans for the onsite wastewater treatment (septic) system for this proposal, and submitted comments for revisions to Mr. Bowerman's engineer on October 7th, 2016. I just now, October 31st, 2016, received, via e-mail, revised plans for review and eventual approval. Given my backlog of work, I hope to get to them by the middle or end of this week.

Based on the size of the lot, and the initial set of plans, I see no reason that a system cannot be approved to accommodate a three (3)-bedroom residence.

George V. Barden, CPESC
Canandaigua Lake Watershed Inspector

Regarding Tax Map Number: 111.00-1-14.500
Address: 0000 Nott Road, Canandaigua, NY 14424
Application No: CPN-065-16

George,

On September 27th we referred a proposed septic system to your office for your review, but, as of today, we have not received a response. This project is on our Planning Board Agenda for November 9th, and they would like to consider your comments during the meeting. Thank you.

Please give me a call if there are any materials that we can provide or questions we can answer.

Best.

Eric A. Cooper
