Subject: Mottler - Brickyard Road - PB Resolutions

Good Morning,

It is the recommendation of the Development Office that the Mottler Project on Brickyard Road be continued until such time as the active County construction project is complete and the site is permanently stabilized.

The County is currently utilizing the parcel as their construction staging yard. The parcel is exposed and under the County's stormwater permit and jurisdiction.

We would not be able to issue a building permit until the current project has ceased operations, and the parcel is returned to the conditions detailed on the 'Existing Conditions' plan submitted with the project plans.

It will be the decision of the applicant if they wish to return the site to the conditions detailed on the current 'Existing Conditions Plan', or have the site re-surveyed after the site has been stabilized.. and submit a new 'Existing Conditions Plan' based on the conditions/topography that the County leaves the site.

Sincerely,
Chris Jensen

Eric/Michelle.. please print and file this email with project documentation
