Subject: revised plans

Sarah,

Just to follow up from our conversation last week. I spoke with Dave Geneco this morning, and reminded him that we need updated plans today in order to appear on the Nov 9th PB agenda for your request for a revision.

We need revised site plans, that have been property reviewed by Dave DeGear (2 inch water main ?), along with the revised exterior renderings from Dave Hanolon, and we will need updated architectural plans that show the updated material rather than board and batton.

If we do not receive these plans today, the next Planning Board meeting is November 29th.

Doug Finch, Director of Development
