

TOWN OF CANANDAIGUA

TREE TEAM

Minutes from March 13, 2023

Present: Dan Marion, Eric Obenauer, Edith Davey, Andy Corino, Sarah Reynolds, Dennis Brewer

Handouts: "Hunter Discovered the Biggest Tree in NY", Genetically Engineered Trees..."

At the next meeting, we will make plans for Arbor Day April 29. We need to determine location, type, etc.

Goals were developed for 2023. Copy enclosed.

We are looking into having a workshop for town residents. Maybe one on "How to Trim Trees" or some other topic.

Continue to work on a list of recommended trees for town residents. Please look over the list Dan gave us and make comments at the next meeting.

Dennis handed out a "Heritage Tree Program" for the town. This is just a starting point and needs to be added to and changed as we develop it.

Dennis will contact the city to find out more about their Heritage Tree program.

At the next meeting, we will set dates for visiting the cemeteries, parks and town hall.

The next meeting is April 11, 2023 at 6:00 at town hall.
