

CAN CARRIER COLLECTION

Many aluminum cans are now packaged with plastic can carrier handles.

Unfortunately, despite the labeling, these handles cannot be recycled with your household recycling. They can be reused or recycled through a drop-off special collection program.

You can do your part to keep these handles out of the landfill or from clogging up the recycling stream by bringing them to a participating collection point.

A PROGRAM OF

Ontario County

Department of Sustainability
and Solid Waste Management

DEVELOPED IN PARTNERSHIP WITH

New Can Carrier Recycling Program Available at the Town of Canandaigua Transfer Station

Many aluminum cans are now packaged with plastic can carrier handles. Unfortunately, despite the labeling, these handles cannot be recycled with your household recycling. They can be reused or recycled through a drop-off special collection program. You can do your part to keep these handles out of the landfill or from clogging up the recycling stream by bringing them to a participating collection point.

In February 2024, Ontario County Department of Sustainability & Solid Waste Management teamed up with Reusable Solutions and Casella to launch the FLX Can Carrier Reuse Program. The idea is simple: bring your carriers back to participating locations ([found here on this map](#)) and they will be brought back to the participating breweries to be cleaned and reused.

If you want to join the program, please reach out to ben@reusablesolutions.co.
