Chapter 174 Subdivision of Lands
Article VI Administrative Review and Approval

Section 174-35 Resubdivision and Lot-line adjustments:

For a resubdivision of a previously approved subdivision plat, the same procedure shall apply as for a subdivision. If the proposed resubdivision, however, consists solely of the simple alteration of lot lines where no additional lots would be created, then the need for the normal subdivision procedures may be waived at the written discretion of the Planning Board Chairperson. A statement indicating such shall be part of the Board's record on the resubdivision. Notification of the purpose for the division (i.e., lot-line adjustment) shall be shown on the plat and in the deeds. Tax numbers shall be reassigned to the new legal descriptions as necessary.

Section 174-36 Lot-line adjustments not involving resubdivision of land:

For a resubdivision that involves the simple alteration of lot lines not involving a filed subdivision plat map and where one party owns two contiguous parcels and no additional lots would be created, then normal subdivision procedures may be waived at the written discretion of the Planning Board Chairperson. A statement indicating such shall be part of the Board's record on the combining of two contiguous parcels. Public notification of the proposed division (i.e., lot-line adjustment) shall be shown in the deeds and in the minutes of the Planning Board. Tax numbers shall be reassigned to the new legal descriptions.

An annexation request shall be denied if it creates a residual parcel.
