

# Public Information Campaign for Waste Diversion Activities

## Addendum # 1

### Questions & Answers

**1. Whether companies from Outside USA can apply for this? (like, from India or Canada)**

A: There is no specific prohibition to working with companies outside the US. However, it would be our preference to have a consultant who is familiar with our culture and New York State laws and programs.

**2. Whether we need to come over there for meetings?**

A: We are looking to develop a personal relationship with a consulting partner. That does not mean that every meeting must take place in person.

**3. Can we perform the tasks (related to RFP) outside USA? (like, from India or Canada)**

A: Please see the response to the first question.

**4. Can we submit the proposals via email?**

A: All proposals must be submitted as directed in the RFP, not by email. Only proposals that meet all the stated objectives and requirements will be considered.
