HIGHWAY ~ ENGINEERING ~ WASTEWATER SYSTEMS & SEWERS ~ BUILDINGS & GROUNDS ~ PARKS ~ PUBLIC WORKS FINANCE

PUBLIC NOTICE

Allen Chase Enterprises, Inc., with office at 24 Co. Rt.1A, Oswego, NY 13126, is under contract with Ontario County to apply herbicides for the purpose of controlling vegetation along highways growing under guide rails and around signposts on county highways where it is undesirable and uneconomical to maintain by mechanical means.

For guide rails, herbicide will be applied to an area beginning at the edge of the pavement for a distance of 3-feet behind the guide rails but not beyond the shoulder break.

Applications will be conducted from a truck mounted spray system using a handgun to completely wet the leaves of the undesirable plants to be eliminated. The material to be used is a mixture of Alligare SFM 75 and Roundup Pro Concentrate.

All materials will be applied in strict compliance with the manufacturer's label recommendations. The applications will occur during the time period of May 23, 2016 thru June 07, 2016.

The map detailing road sections to be treated is available for public viewing at the Ontario County Department of Public Works Office, 2962 County Road 48, Canandaigua, N.Y. 14424 during normal business hours.

Also available at this location are copies of Material Safety Data Sheets and product labels.

Persons who have surface water sources, particularly dug wells within the highway right of way should contact Ontario County at (585) 396-4000 during business hours so the sites may be inspected or contact Allen Chase Enterprises Inc., at 1-866-247-3844, extension 6 for Allison Grasso.
